

Steven Glab

steven@sbt1.dev | sbt1.dev | github.com/thesubtleties | linkedin.com/in/stevenglab | Phoenix, AZ

Professional Summary

Forward-thinking technology professional transitioning to software development, combining full-stack development expertise with 12+ years of business leadership experience. Proven track record of leading technical implementations and scaling operations from \$1.5M to \$5M+ in revenue. Recently completed App Academy's software engineering program, with expertise in modern web development technologies and a portfolio of full-stack applications.

Demonstrated ability to manage high-stakes technical productions for Fortune 500 executives and government leaders.

Technical Skills

Core: JavaScript, TypeScript, Python, SQL

Frontend: React, Redux, React Router, Vite

Backend: Flask, Express, PostgreSQL, SQLAlchemy

Tools: Docker, Git, REST APIs

Technical Projects

Atria - Virtual Event Platform

atria.sbt1.dev

- Engineered comprehensive virtual event platform using React, Flask, and PostgreSQL
- Implemented JWT authentication system and complex data relationships with Flask-SQLAlchemy
- Designed RESTful API architecture with Flask-Smorest for robust data validation

TaskFlow - Project Management Application

taskflow.sbt1.dev

- Led team of 4 developers in creating full-stack project management application
- Developed sprint timeline visualization and task management features using React
- Implemented database schema and API endpoints using Flask-SQLAlchemy

SpookySpot - Property Rental Platform

spookyspot.sbt1.dev

- Built full-stack Airbnb clone using Express, React, and PostgreSQL
- Implemented secure file storage system using MinIO for property images

Professional Experience

Vice President of Operations

Marx Productions, Chandler, AZ | Jul 2017 - Dec 2023

- Led digital transformation initiative, developing custom technical solutions that grew virtual events revenue from \$0 to \$500K+ annually
- Managed technical production for 100+ virtual events (15-1,200 attendees) featuring high-profile speakers including President George W. Bush, SEC Chairman Gary Gensler, and Fortune 500 CEOs

- Orchestrated live event productions (15-2,000 attendees) for President Biden, President Trump, VP Harris, and corporate leaders
- Implemented JavaScript/CSS solutions for virtual event platform customization, including Calendly integration and custom presenter interfaces
- Scaled company operations from \$1.5M to \$5M+ in revenue while growing team from 15 to 50 employees

Operations Coordinator

Marx Productions, Chandler, AZ | Jul 2011 - Jul 2017

- Optimized operational processes and implemented cost-saving measures for live events ranging from 15-2,000 attendees
- Managed day-to-day operations and client relationships with Fortune 500 companies and industry leaders
- Contributed to company's initial growth phase and operational foundation through process improvement and team development

Education

App Academy

Software Engineering Program | 2024

- Completed 1000+ hour software engineering program focusing on full-stack web development
- Developed three full-stack applications using modern technologies and best practices
- Mastered modern web development technologies including React, Express, Flask, and PostgreSQL

Arizona State University

Bachelor of Science in Biochemistry

- Developed strong analytical and problem-solving skills through rigorous scientific curriculum
